Bio Energy Scoping Study

SPECIAL REPORT

SUSTAIN
Northern Rivers

New South Wales North Coast Bioenergy Scoping Study

**Authors: Nicky Ison, Laura Wynn, Jay Rutovitz,
Craig Jenkins, Paul Cruickshank, Katrina Luckie**

Sustain Northern Rivers is a collaboration of 27 regional organisations, which aims to empower local communities to become self-sustaining. Our focus areas are food, transport, energy and behaviour change.

2. CURRENT AND EMERGING NORTH COAST BIOENERGY ACTIVITIES

This section of the report outlines existing activities in the North Coast region. The map in Figure 1 shows locations of existing bioenergy activities and potential future feedstocks.

Figure 1: Existing bioenergy activities and potential future feedstocks

Table 1 (over) provides details on current and emerging activities, including location, size and feedstock type.
