# Multiple Land Use Framework

***Mine Rehabilitation Conference:  
Best Practice Ecological Rehabilitation, Singleton NSW***

**25th September 2014**

**Luke Bewley**  
**Manager, Coal and Access**  
**Coal and Minerals Productivity, Resources Division**  
**Department of Industry**

# What is multiple land use?

- Multiple
- Sequential

# Case Study – *Emscher Park, Germany*

- One of Europe's largest industrial districts for a century
- 800 square km
- Coal dominated landscape
- Large areas derelict throughout the region
- High levels of environmental pollution.

# Case Study – *Emscher Park, Germany*

View of the Emscher from the roof of the Gasometer

The Nordstern coke plant - converted to an office block, sitting among other office blocks and car park as the corner stone of an business park.

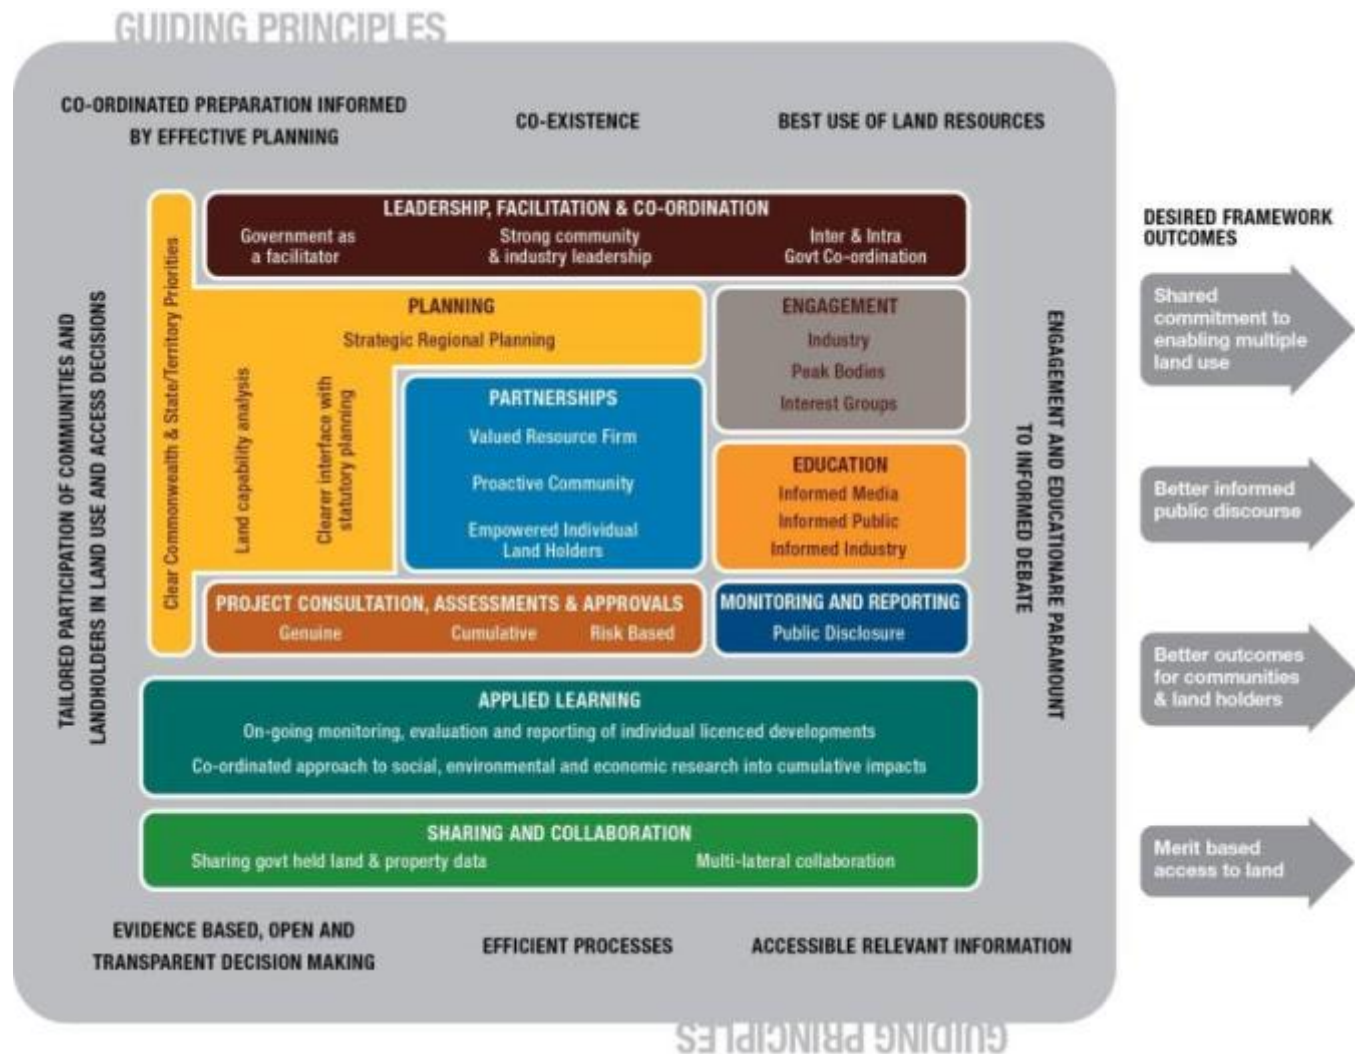

# Why a framework?

- Address conflict
- Improve coexistence
- Enhance our economy
- Enable communities
- Leave a positive legacy for future generations

# The Framework

- Principles
- Components
- Outcomes

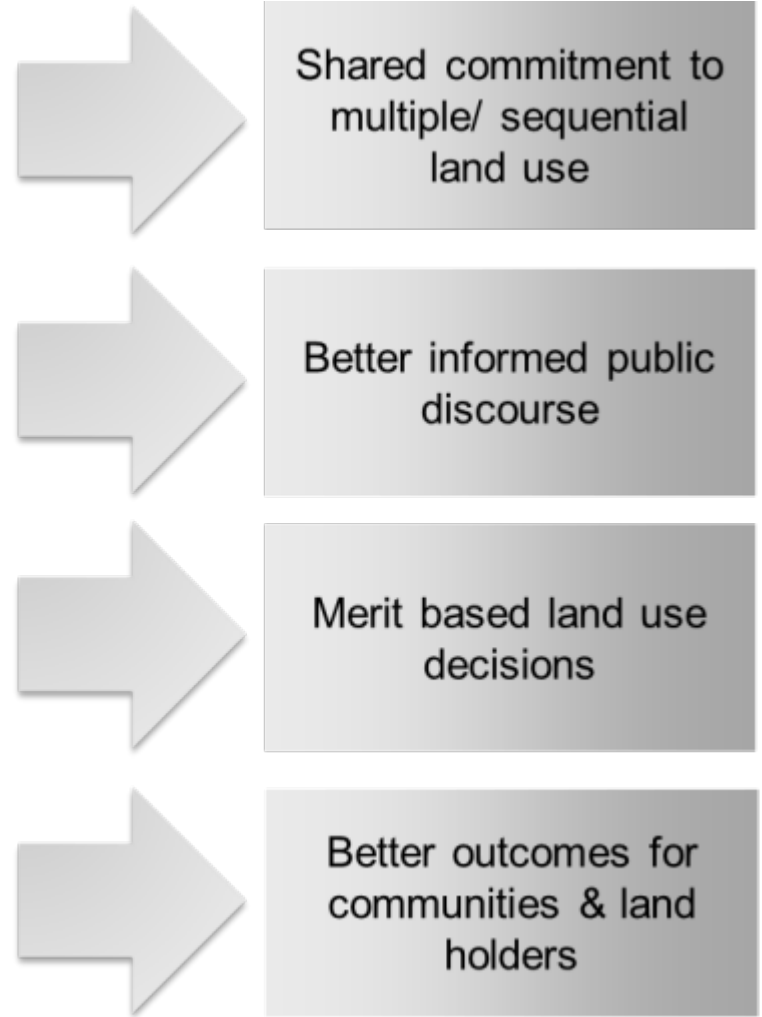

# Guiding Principles

- Best use of resources
- Coexistence
- Strategic planning
- Tailored participation
- Engagement
- Decision making and accountability
- Efficient processes
- Accessible information

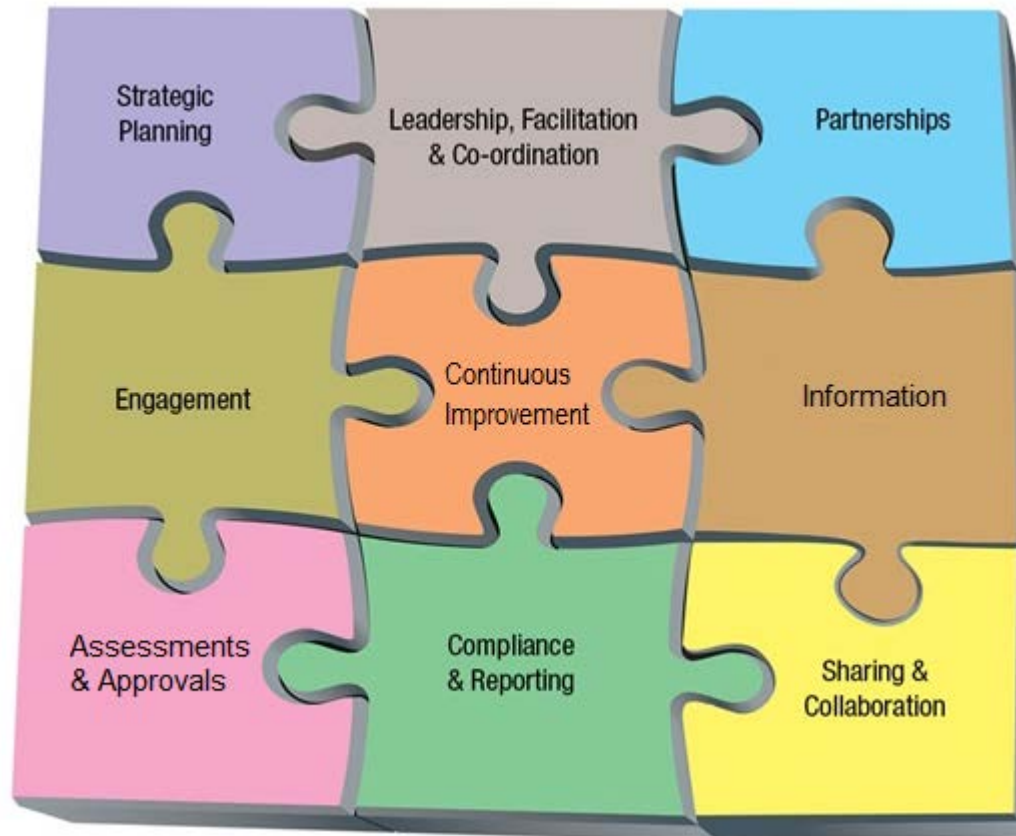

# Desired Outcomes

# Components

# Implementation

- Implement according to requirements.
- Embed into government policy.
- Whole of government approaches.

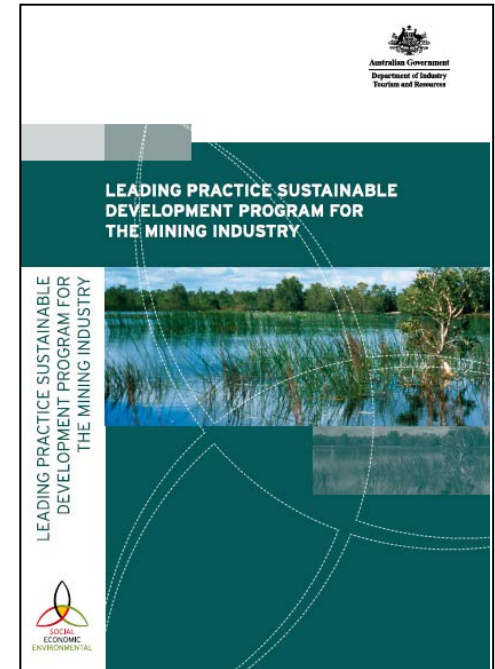

# Social Licence to Operate

# Leading Practice

- The best way of doing things for a given mine site.
- As new challenges emerge and new solutions are developed, it is important that:
  - leading practice is flexible and innovative; and
  - solutions are developed that match mine site specific requirements.
- It is an evolving target – adaptive to changing standards and situations.

# Thank you
